CRAFTED

CABINETRY AND MILLWORK

RTF Profle & Prices 2026

To Our Customers

Crafted Cabinetry and Millwork is a working cabinet shop in Concord, California. We build cabinetry, and we supply doors, drawer fronts and drawer boxes to other shops, to contractors and to homeowners.

Everything in this book is made to your sizes after you order. Nothing is stocked, and nothing is rounded to a fixed increment. Doors are priced per square foot, the way you already quote them, with a two square foot minimum per door and one square foot per drawer front — a minimum that applies to a small door, not to your order.

Two things worth knowing before you price anything

We finish. Doors are sprayed and cured in our own booth in Concord and arrive ready to hang. Most door suppliers ship raw. If you do not have a booth, or you have one and it is the bottleneck, that is the reason to call.

One door is an order. No minimum quantity and no minimum dollar amount. A single replacement door is a normal order here and one of the most common reasons people come to us.

What you can expect

- Unfinished doors and drawer fronts ship in 10 business days, finished doors in 15. Those are ship dates, counted from the day payment clears; transit is on top and is estimated at checkout.
- Prices in this book are per square foot and are current as of the date on the cover. They are subject to change.
- If something will be late, we will tell you before the ship date, not after it.

Payment & Delivery

Payment

You pay when you order. Production time starts the day the payment clears, which for a card is normally the same day. Card and PayPal are accepted at checkout on shop.craftedcabinet.com.

There is no minimum invoice charge. One door is an order: no minimum quantity and no minimum dollar amount.

Trade accounts

Cabinet shops and contractors can apply for a trade account at shop.craftedcabinet.com/trade. Send a cut list and you get a price back within one business day.

Sales tax

California sales tax applies where required. If you are buying for resale, send a current resale certificate and the tax comes off.

Delivery

Lead times in this book are **ship dates, not delivery dates**. Doors and drawer boxes go out by parcel or by freight depending on size; vanities ship crated by freight. Transit is estimated at checkout and is not guaranteed by the carrier.

- We ship to the lower 48 states. We do not ship to Alaska or Hawaii.
- Free local pickup at the shop in Concord.
- Shipping is calculated at checkout from the order, not from a flat rate.
- Mixed orders ship together on the longer lead time. Ask us to split an order and we will.

Damage and shortages

Inspect the shipment before signing for it and note any damage on the delivery receipt. Tell us within five business days with photographs, and we will deal with the carrier.

Warranty & Care

Thermofoil: three years

Crafted Cabinetry warrants the thermofoil doors, drawer fronts, moulding and accessories in this book for **three years from the date of invoice**, against delaminating, yellowing, chipping and cracking under reasonable treatment and normal conditions.

The remedy is replacement of the door, drawer front, moulding or accessory. Our liability is limited to the net invoice price of the piece as sold. We are not liable for a film being discontinued by its manufacturer.

Cabinetry and workmanship: limited lifetime

Crafted Cabinetry's limited lifetime warranty on cabinet structures and workmanship against manufacturing defects, under normal residential use and for the original purchaser, is unchanged. The three-year term above applies to the thermofoil film specifically. If a covered issue occurs we will review it and determine the appropriate remedy, which may be repair, replacement, or replacement parts.

Covered: structural failures caused by workmanship defects, defective components supplied by us, and manufacturing issues affecting the intended function of the product.

Not covered: normal wear and tear; damage from improper installation, misuse, accident or neglect; improper care or cleaning; modifications made after delivery; natural variation in grain, colour or finish; and damage from excessive moisture, humidity or environmental conditions.

Product specifications

- Doors, drawer fronts, moulding and accessories are built on 3/4" MDF.
- Height and width tolerance is plus or minus 1/16 inch. Warp tolerance is plus or minus 3/16 inch.
- Minor defects — a slight dent, bump, scratch or router mark — are allowable, and should not be visible at about two feet.
- On the back of doors, drawer fronts, moulding and accessories, repaired scalps and slight imperfections are acceptable.

Cleaning

- Warm soapy water and a soft clean cloth.
- Abrasive and solvent-based cleaners are not recommended, and using them voids the warranty.

Installation

- Take care when preboring. Put a protective layer between the work surface and the face of the door to avoid scratches and dents.
- High gloss, satin and super matte films ship with a peel coat. Leave it on until the cabinets and countertops are installed.
- Use additional hinges on doors over 42 inches tall.
- Keep at least 5 inches between a door and any appliance producing temperatures above 190°F — ovens, toaster ovens, range tops and stoves. **Foil will not hold up to excessive heat.**

Claims

Email information@craftedcabinet.com with your order number, a description of the issue, photographs, and any relevant project details.

How to Order

Sizes

Submit **finished door sizes only**, width by height, measured individually and given to the sixteenth of an inch. Doors run from 5 by 8 inches up to 49 by 96. We cut to the number you give us, so a size that is wrong is a new door rather than a correction.

What to specify

Six things define a door: size, overlay, hinge boring, species or foil colour, panel type and thickness. Size and boring are the two that cannot be put right afterwards. Settle overlay and boring once for the job rather than per door.

Three ways to order

- **Online** at shop.craftedcabinet.com. Enter your sizes on the product page and the price updates as you type.
- **Send a cut list.** Email it to information@craftedcabinet.com. Any format you already use is fine, as long as each line carries the style, the colour, the size, the boring and whether it is a door or a drawer front.
- **Trade account.** Apply at shop.craftedcabinet.com/trade and send cut lists against it. Price back within one business day.

Separate and label different materials, door styles and specials — glass doors, French lites, lazy Susan and wainscot panels — on any cut list you send.

Confirmations and changes

You get an order confirmation with a ship date. If you have not had one within one business day, call before resending, so the order is not duplicated. Once an order is confirmed and in production it cannot be changed.

Quotes

Mark a request QUOTE ONLY. Most quotes go back the same day; a large or special request may take longer. Quotes are valid for 30 days.

Specialty work

Specialty doors need a drawing. We will give you a lead time when the drawing is approved.

Pricing

All prices in this book are per square foot and are subject to change. Doors carry a 2 square foot minimum and drawer fronts 1 square foot, applied per piece. Finishing is priced per door and needs 8 doors on the order.

Thickness:

3/4” is our standard door, drawer front, molding and accessory thickness.
Toe kicks are standard at 1/4” thick.
RTF is not available in any other thickness than standard thickness.

Glass doors are not available on all RTF door styles.
Refer to Glass Door Chart on page #72 & #73 for availability.
Use door sq. ft. price + $27.00 per piece.
Our glass doors come with our standard route (see below).

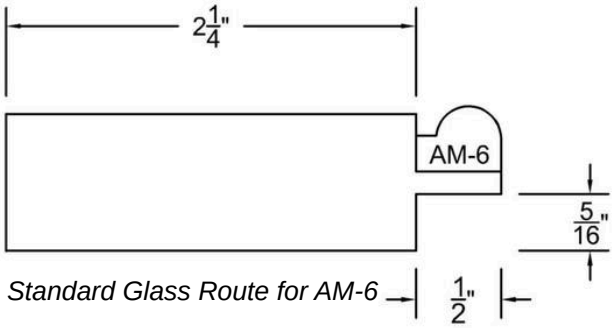

Standard Glass Route

Standard Glass Route for AM-1

Standard Glass Route for AM-4

Standard Glass Route for AM-6

Horizontal Grain on Doors:

Refer to Contemporary Series for pricing and availability (see pages 16-29).
Up to 40" height: *add $3.38 per sq. ft.*
Larger than 40" up to 48" height: *add $6.75 per sq. ft.*
Drawer Fronts that exceed 36" in width or 12" in height: *use door sq. ft. price.*
If horizontal grain is requested on a door style other than the Contemporary Series, *call for pricing.*
Book and bank match grain not available.

Lazy Susan:

No Detail on one stile: *add $6.75 per door.*

Loose RTF Foil:

52" wide 8' minimum lengths.
Loose foil can be difficult to handle therefore we recommend Phenolic Backing.
Loose foil cannot be returned.
Loose foil is available in all stocked RTF colors.
Packaging Charge: *$33.75 per box* (maximum 24 linear ft. per box).

Loose Foil Pricing (per linear ft. price)
949 White: $8.10
Group 1: $10.80
Group 2: $10.80
Group 3: $13.50
Group 4: $13.50
Group 5: $16.20

Moldings:

MDF & RTF Moldings available in 96" lengths only.
Moldings shipping Fed Ex or On Trac will but cut in half.
Moldings come standard with Raw MDF Back.
Please refer to the specific molding page for minimum orders and/or charges.
For additional options refer to our molding section of our Wood Profile & Price Book 2021.
The majority of our wood moldings are available in RTF. Set-up fees and minimums orders may apply, *call for pricing* .

Phenolic Backing:

Available in 4 x 8 sheets.
Phenolic Backing is where the same foil is laminated to the face of High Pressure Laminate (HPL).
Using a phenolic back makes for easy installation and an exact foil match.
Packaging charge on all phenolic orders: *$33.75 per box* (maximum of three sheets per box).

Phenolic Pricing (pricing per 4' x 8' sheet)
949 White: $155.25
Group 1: $168.75
Group 2: $168.75
Group 3: $202.50
Group 4: $202.50
Group 5: $236.25

Prebore Applications:

Standard Prebore Placement: *add $4.05 per bore.*

Must specify Cup only or Cup & Dowel.

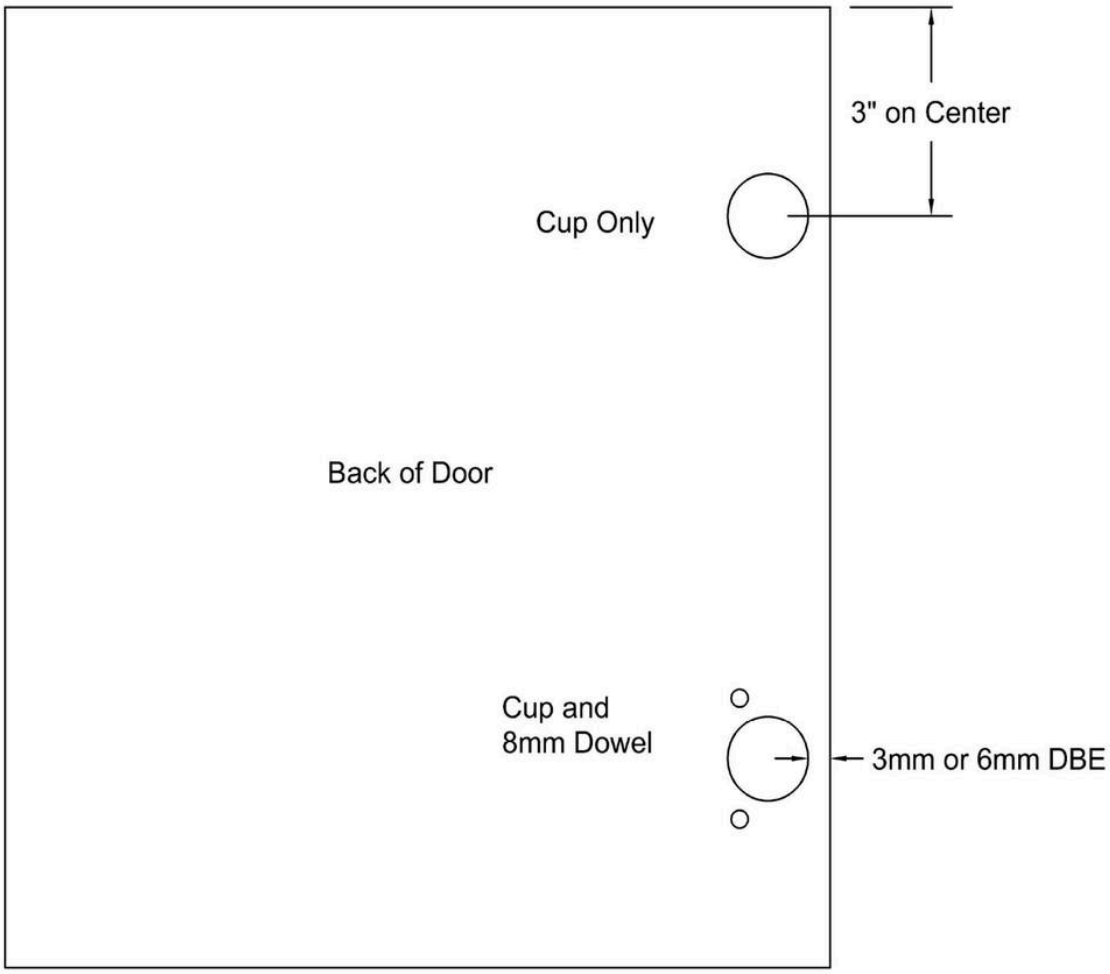

Must specify DBE (distance from back edge) 3mm or 6mm only.

Standard placement includes 2 holes, 3" on center from top and bottom.

Any door over 50" will receive 3 holes unless specified otherwise.

Must specify right or left stile for arch doors.

Special placement of prebore is not available.

35mm cup diameter
12mm deep bore
DBE: Distance from Back Edge

Rosewood Edge R-3:

Doors: *use door sq. ft. price + $20.25 per piece.*

R-3 is standard on OPSHR-3 door style.

Solid Drawer Fronts: *use solid drawer front sq. ft. price + $20.25 per piece.*

Routed Drawer Fronts: *use door sq. ft. price + $20.25 per piece for rosewood + route charge per piece, (route charge will vary depending on routed drawer fronts style).*

Thickness:

3/4" thick.

No options available.

V-Grooves & Beaded V-Grooves:

Door Styles that come standard with V-Grooves or Beaded V-Grooves:

Camden: 3/8" Beaded V-Grooves are standard, refer to page #54 for pricing.

Ranchero: 1/8" V-Grooves & 1/4" V-Grooves are both standard options, refer to page #56 for pricing.

V-Grooves & Beaded V-Grooves can only be added to Plank & Plank with Horizontal Grain door styles only.

Maximum panel size 42" wide by 60" tall.

Use Plank door sq. ft. price or Plank Horizontal Grain door sq. ft. price + groove charge.

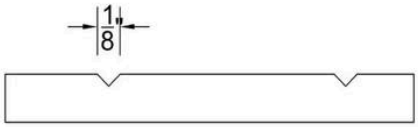

1 1/2" On or Off center: *add $4.73 to sq. ft. price*

2" On or Off center: *add $4.05 to sq. ft. price*

3" On or Off center: *add $3.38 to sq. ft. price*

Groove Options:

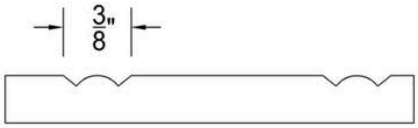

1/8” V-Groove

1/4” V-Groove

3/8” Beaded V-Groove

Wainscot Panels:

Order fnished door size only.

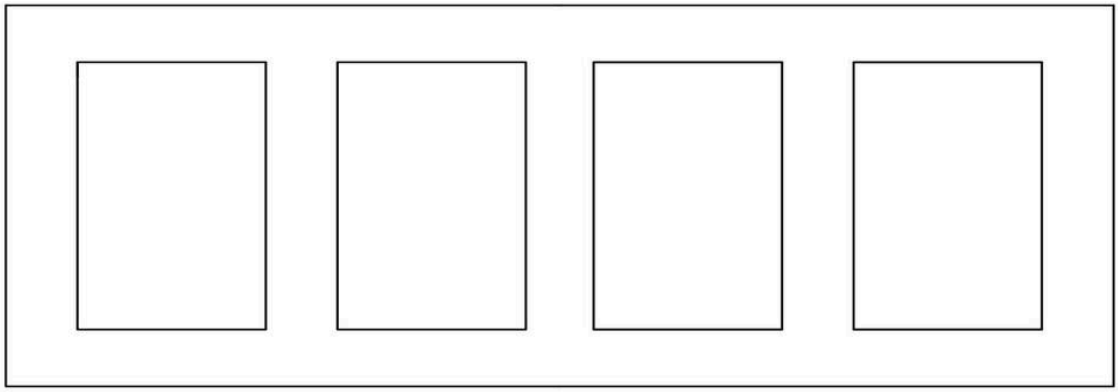

Customer is responsible ❖ providing all measurements and details necessary.

Detailed or CAD Drawings are required for price quote.

Pricing will vary depending on programming required.

Maximum Sizes
W x H
96” x 30”
*□2 x 36”

- 96” is the maximum width for a wainscot panel, panel may not exceed 30” in height.
- *Wainscot panels that exceed 30” in height can only be manu❖actured up to □2” in width.

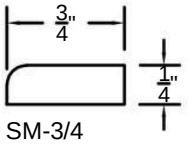

Wainscot Panel
(shown with 4 panels)

ALL PHENOLIC IS MANUFACTURED BY US
We do not outsource this product.
No minimums and phenolic will ship with your door/drawer order.

Loose RTF Foil:
52” wide 8’ minimum lengths.
Loose foil can be di❖cult to handle therefore we recommend Phenolic Backing.
Loose foil cannot be returned.
Loose foil is available in all stocked RTF colors.
Packaging Charge: *$33.75 per box* (maximum 24 linear ft. per box).

Phenolic Backing:
Available in 4’ x 8’ sheets.
Phenolic Backing is where the same foil is laminated to the face of High Pressure Laminate (HPL).
Using a phenolic back makes for easy installation and an exact foil match.
Packaging charge on all phenolic orders: *$33.75 per box* (maximum of three sheets per box).

Please note -

While we have worked to identify the best possible matches, these are recommendations only. Crafted Cabinetry and Millwork highly recommends that you order a sample from us prior to placing an order.

Lead Times & Minimums

Everything is made to your sizes after you order. Nothing is stocked, so every figure below is production time, counted in business days from the day your payment clears.

What you ordered	Ships in
Cabinet doors and drawer fronts, unfinished	10 business days
Cabinet doors, finished	15 business days
Drawer boxes	10 business days
Vanities	15 business days
Samples	1 business day

These are ship dates, not delivery dates. Add transit on top. Transit is estimated at checkout and is not guaranteed by the carrier.

Finished doors

Finishing takes 15 business days rather than 10 because the doors are sprayed and cured here in Concord after they are made. Most suppliers do not offer finishing at all; the ones that do quote 17 to 30 business days. Finishing is priced per door and needs 8 doors on the order.

No minimum order

One door is an order. There is no minimum quantity and no minimum dollar amount. Doors are priced per square foot with a 2 square foot minimum per door and 1 square foot per drawer front, which is the industry standard and applies to a small piece, not to your order.

Mixed orders

If one order has unfinished doors and a vanity, the whole order ships together on the longer lead time. Ask us to split it and we will.

If something will be late

We will tell you before the ship date, not after it.

Finishing

Thermofoil doors arrive finished: the foil is the finish, and there is nothing to spray. This page is about the wood door range, where finishing is the thing most suppliers cannot do for you.

What we do

Doors are sprayed and cured in our own booth in Concord and arrive ready to hang. Most online door suppliers ship raw, which leaves a shop without a booth to find one, and a shop with a booth to make room in it.

Terms

- Finishing is priced per door.
- It needs **8 pieces on the order**.
- Finished doors ship in 15 business days rather than 10.
- Hinge boring and glass-ready preparation can be ordered alongside it.

Thermofoil backs

Thermofoil doors and drawer fronts come with a white back at no additional cost, and black is also available at no additional cost. A back matching the front colour is an option at an added cost per square foot of door, where the film allows it.

Samples first

Finish samples ship in one business day. If you are matching a kitchen that is already installed, order samples and hold them against the existing doors before committing to a run. Foil colours in particular read differently in a photograph than they do on a door.

Measuring & Specifying

Six fields define a door. They are not equally forgiving: size and boring turn into a new door if they are wrong, and the rest turn into a door you are less happy with.

Field	What it changes	If it is wrong
Size	Everything — the door is cut to it	A new door. It cannot usefully be recut
Boring	Whether your hinges fit without drilling	A new door, or drilling on site
Overlay	How far the door laps the opening	Doors that rub, or a reveal that reads as a gap
Colour or species	How it reads beside the others	A door that looks wrong but fits
Panel type	The shadow line, and the price	A different look from the one you drew
Thickness	Set by the style, not by you	Nothing — it follows the style

Sizes

Measure each piece individually, width first, to the sixteenth. Give finished door sizes, not opening sizes. On a refacing job measure the existing doors, not the openings, unless the overlay is changing.

Boring

Standard preparation is a 35 mm cup, 12 mm deep, set 3 mm from the back edge, with dowels, and two bores per door. Tell us if your hinge needs anything else. Doors over 42 inches tall should carry a third hinge.

Minimums

Doors bill at a 2 square foot minimum and drawer fronts at 1 square foot. That applies to each small piece, not to the order.

Shipping & Freight

Shipping is calculated at checkout from what is in the order. Doors and drawer boxes go by parcel or by freight depending on size and quantity; vanities ship crated by freight; samples go by parcel.

Where we ship

The lower 48 states. We do not ship to Alaska or Hawaii — freight to either is not something we can quote honestly.

Local pickup

Free, at the shop: 5114 Port Chicago Highway, Suite B, Concord, California 94520. Pick-up is offered at checkout on Bay Area addresses and saves the whole freight charge on a large order.

Transit

Lead times in this book are ship dates. Transit is added on top, is estimated at checkout, and is not guaranteed — no LTL carrier will stand behind a transit figure in advance. If a delivery is genuinely date critical, ask and we will price dedicated capacity, which can carry a date.

Long mouldings and handrail

Anything over 96 inches crosses the carriers' over-length threshold and ships as freight rather than parcel, at a substantially higher cost. A long piece is often worth collecting, or worth ordering in shorter lengths if the job allows.

Delivery

- Inspect before signing and note damage on the delivery receipt.
- Tell us within five business days, with photographs.
- Delivering to a business with a dock is materially cheaper than a residential address with a liftgate. Say so at checkout if it applies.
